

Extended warranty for your Fluke instrument.

Repairs are always unexpected, and they can be costly. Control your cost of ownership with a Fluke Silver CarePlan.

The Fluke Silver CarePlan is a comprehensive instrument warranty support plan that puts you in charge of your operating costs and protects your investment in your new Fluke instrument.

Extend repair coverage for two or four additional years beyond your factory warranty¹

If your Fluke covered instrument needs repair, we'll repair it at no charge, including a new calibration of your choice. Select from two- or four-year plans and have peace of mind, knowing that your cost of ownership is under control.

Choose the calibration that's right for you should you need a repair

Silver CarePlans include a calibration with any necessary repair⁴. When you purchase your plan, simply select the calibration that's right for

you and your company. Select from these model options:

- **TRA:** Traceable calibration without data
- **STD:** Standard calibration with data (Z540 in US)³
- **ACR:** Accredited calibration (A2LA in US)

Notification of important product updates – included^{2, 4, 5}

Keep your instrument up to date. When you are registered on our website, you will receive email notification of important PCN (product change notices) that affect your instrument. If your instrument is sent to us for repair, our technicians will install these firmware, software or hardware improvements—at no charge to you. Other providers cannot perform these valuable services.

Qualifying for the Priority Silver CarePlan

You may purchase your Silver CarePlan at the time you order your new instrument or anytime within your new product's one-year factory warranty.

What calibration should I choose?

The type of calibration you have performed after a necessary repair depends on your company's requirements. For more information on calibration types go to www.fluke.com/calibration.

Still have questions?

Every business needs to know their money is working hard for them. Your local Fluke representative can show you the value of these plans by comparing Silver CarePlans to other forms of instrument maintenance and repair. You'll be surprised at the value these plans offer!

Silver CarePlan basic features:^{1, 2, 3}

- Extended warranty coverage for your instrument beyond your original factory warranty (includes calibration at time of needed repair)
- Free product updates (PCNs) performed at the time of repair
- Two- and four-year plans available

For a comprehensive list of Silver CarePlan models for your specific instrument, go to: www.fluke.com/silvercare

Contact Fluke or your local representative or distributor for more information or to place your order.

*Silver CarePlan service, repair and calibration benefits are not available in all countries. Confirm availability with your local authorized Fluke representative.

Footnotes:

1. Extended warranty covers normal instrument repair issues. Instruments showing signs of failure due to physical abuse, improper operation or application as determined by our labs are not covered under these Silver CarePlans and standard repair and calibration charges will apply.
2. PCN (product change notice) updates concern operations and specifications important to maintaining proper product operation. Only significant (level 1 and level 2) updates are installed.
3. Not all calibrations are available for all products. Standard "STD" calibrations provided; U.S: ISO 17025 (Z540); Europe: CalNet® Accredited, "ACR" calibrations provided; U.S. A2LA; Europe: UKAS, DKD or RA depending on lab.
4. Calibrations are not performed and PCNs are not installed on instruments that do not require repair or are evaluated as "no-fault found" on our technician's final analysis.
5. Notification is dependent on the information you list when registering on our website.

Other value-added services from Fluke:

Silver CarePlans are just one of the great value-added products and services offered by Fluke to support their customers. Other products include:

- **Gold CarePlans:** Priority turnaround service plans for annual calibration and repair services
- **TEAM:** Web-based Test Equipment Asset Management helps track and control your test and measurement assets
- **Product upgrades:** Enhancement options for a wide variety of Fluke instruments
- **On-site calibration contracts:** Keeps manufacturers up and running and costs under control with scheduled calibration visits by Fluke Service.
