PRESS RELEASE

ProTEQ Solutions LLC., from Nashua, NH., announces that they have signed an exclusive contract to represent **Ulyssix Technologies Inc.** in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York and New Jersey.

ProTEQ is an independent test and measurement manufacturer's representative serving New England and now; New York and New Jersey.

Ulyssix Technologies is a woman-owned small business providing innovative communication products for telemetry and satellite communication systems. They concentrate on DSP based board level products in PCI and VME form factors. These can easily be installed in existing host computers eliminating the need for additional rack mount instruments. Current products include Digital Baseband / FM Demodulators, FM Calibrators, Modulators, PCM Generators and IF Receivers.

ProTEQ's General Manager, Charles Freihofer said "Telemetry data collection is a growing market and Ulyssix is one of the few companies working in this space that welcomes custom and semi-custom requirements. Their ability to quickly develop solutions is truly unique. Our customers will also like that they are located close by in Maryland and available to meet face-to-face on short notice to better serve the customers."
